

CONVENTIONAL FOODS

An Emord & Associates Teleconference

FDA imposes unique regulatory hurdles on conventional foods. In this informative teleconference, the attorneys at Emord & Associates will explain:

1. Food ingredients, additives, and the Generally Recognized as Safe (GRAS) requirement
2. Regulation of organic foods and “natural”
3. Food structure/function claims and how they differ from dietary supplement structure/function claims
4. The intricacies of Nutrition Facts panel labeling
5. Food identity standards
6. FDA’s regulations concerning low acid canned food and acidified foods
7. Registration under the Bioterrorism Act of 2002

Teleconference Date:

August 22, 2008

12:00 PM EST

**Audio Recording available
for those not able to
participate**
