

# RESTORE THE REPUBLIC

In **RESTORE THE REPUBLIC**, constitutional lawyer Jonathan Emord documents the transformation of the United States from a limited federal republic into an unlimited bureaucratic oligarchy. He proves the abandonment of constitutional governance to be the basis for the debt crisis, government deprivation of economic and civil liberties, and regulatory destruction of the market. He provides a detailed plan to restore the republic and save the nation.

## FROM THE FOREWORD BY RON PAUL:

“Restore the Republic combines Jonathan’s vast knowledge of constitutional law and history with his practical experience defending liberty in the courtroom. . . . Individuals [in] the Tea Party movement, and organizations like Campaign for Liberty and Young Americans for Liberty, will find this an invaluable explanation of how constitutional bulwarks against big government were eroded—and how we can rebuild them. [L]iberty activists . . . will benefit from Jonathan’s unique perspective as an expert in constitutional theory and history.

## NATIONAL TALK RADIO HOST JEFF RENSE:

“In this extraordinary new book . . . we are given a mind-bending overview of the wreckage of our political traditions and shown how usurpers in Congress, the Courts, and the Executive Branch have destroyed our liberty . . . Should we be fortunate enough to take back and revive our great nation, it will be books like this, and great men like Jonathan Emord, who will lead the way.”
