

# PETITION

To the United States House of Representatives  
and to the United States Senate

I/We, the undersigned, do petition our elected representatives and senators to end the Food and Drug Administration's prohibition against nutrient-disease relationship claims on labels and in labeling of dietary supplements. I/We further petition our elected representatives and senators to end the Federal Trade Commission's enforcement practice of deeming all health benefit advertising deceptive unless the advertiser proves to FTC's satisfaction that the ad is backed by "competent and reliable scientific evidence." Our First Amendment puts the burden of proof on government to prove statements false before government may restrict them; FTC has shifted the burden to private parties in violation of the First Amendment. I/We urge Congress to act now to end FDA and FTC censorship.
